1. A new department has been organized within the Ministry of National Security (MNO), to be in charge of construction of new airports and improvement of old military airfields. Ing. Mosjenko, a Russian emigrant, is chief of this department. He has 30 men working under him.
2. The construction of a new airfield about 12 km from Ceske Budejovice (Q49/496) has been ordered. The CsSZ (Czechoslovak Building Association) had engaged the Besta firm, Prague, to handle this project, which has been classified "Secret Action 21". However, the firm Posista, Prague, has taken over the construction of the airfield. The work will be done under military supervision. Other projects include the enlargement of the military airport, Brno (P50/N40), and plans for twelve new airports.
